7. [redacted] Jim Bush, in the office of Senator Philip Hart (D., Mich.), called and said that the Senator may want to use some of his personal staff to assist him in the proceedings of the Select Committee. He wanted to know about clearances. He said he has a Top Secret DOD clearance. I advised him that all we had to go on was the floor discussion, that it would be up to the Committee to decide. I suggested that he plug in through Committee channels.

25X1A  
8. [redacted] Called Marian Czarnecki, Chief of Staff, House Foreign Affairs Committee, and advised we had a reply to Chairman Thomas Morgan's (R., Pa.) 9 January letter regarding the Foreign Assistance Act amendment requirements and wondered if this has been overtaken by events. Czarnecki said he thought it was a good idea to go ahead and send it. He added that he just did not have time to meet with [redacted], OCI, concerning the receipt of the NID and we agreed we would wait until we hear from Czarnecki.

25X1  
9. [redacted] Called George Murphy, Deputy Director, Joint Committee on Atomic Energy, and discussed with him the security procedures in the Joint Committee as they might relate to the Senate Select Committee on intelligence activities.

6. [REDACTED] Senator Roman Hruska (R., Neb.) called and asked that we assemble some material for him on the legislative history of CIA. He is interested in the original bill, the reports of the House and Senate and any references in the Congressional Record or copies of the debates and the discussions. He said he feels the need to review all this material because "if we go along in these things some of the fundamental reasons for forming this organization may be imperiled or unjustly attacked." I told the Senator we were pulling together material like this in connection with the Select Committee and I would be glad to provide him with the items he requested. He said he would like something by Friday, noon. We chatted briefly about the Committee and he said he voted for it mainly because he didn't want people to point to his vote and say "aha, he knows there is something wrong and that is why he opposed it." I said the thing we are concerned about is the handling of sensitive information. I also mentioned the matter of personal staff members having access to this information. He agreed that would be a disaster.
